

VICE PRESIDENT of MEMBERSHIP– NICOLE HARDER, RN, MPA, PhD(c)

Nicole has been an active member of INACSL for several years and values the rich resources that it provides. She is the coordinator of the skills labs and simulation center at a large University in Winnipeg, Canada for the past 8 years. Nicole has developed and conducted many local and international faculty development workshops related to psychomotor skill acquisition and education using simulation. Her research interests are primarily related to the learning that takes place during simulation and the culture of simulation. She brings a strong background in teaching with simulation, research into teaching and learning with simulation, and expertise in faculty development to the INACSL Board. Nicole enjoys networking and communicating with other interested colleagues and looks forward to bringing this enthusiasm to the VP of membership role.
