Marianne Schubert is currently the Coordinator for the Nursing Skill and Simulation Laboratory at Union County College, Plainfield, NJ. Marianne was hired as the Skill Lab Coordinator who then turned the lab into a high-fidelity simulation laboratory. She has been active in simulation for the last 20 years as adjunct faculty for the paramedic program and then as the Coordinator for the practical nursing program.

Marianne graduated with honors from University of Phoenix with a Master of Science in Nursing with a specialization in Health Care Education. Marianne has quite the diverse background – NJ State Paramedic for over 20 years; Certified Emergency Nurse for 13 years and a Medico-Legal Death Investigator for the County Medical Examiner for five years. She has actively excelled in developing, implementing and serving as the Emergency Preparedness Coordinator for a health care system in New Jersey.

Among being full-time faculty for the practical nursing program, Marianne also holds instructorships in ACLS, PALS, BLS, and PEPP. Marianne was inducted into Sigma Theta Tau International Honor Society for Nurses while pursuing her BSN and recently for her MSN-ED degree. Marianne is currently the LPN/LVN Representative for INACSL (2009-2011). She is also a member of the, Society for Simulation in Health Care, NLN, IAFN, ANA, ENA, and a member of the National Association of EMS Educators.

Marianne truly believes in lifelong learning and applying theory and concept through simulation in the skill laboratory. It is enjoyable to watch the students' progress through the semesters developing their clinical skills, decision-making, critical-thinking skills and self-esteem. As part of her master's practicum she developed a Policy & Procedures Manual for the Simulation and Skill Lab.
