

Janis C. Childs, RN, PhD

Professor of Nursing & Director of the Learning Resource and Simulation Center
College of Nursing and Health Professions
University of Southern Maine
PO Box 9300
Portland, Maine 04104-9300

Dr. Janis C. Childs is a Professor of Nursing and the Director of the Learning Resource and Simulation Center at the University of Southern Maine, College of Nursing and Health Professions. Dr. Childs' research and scholarship of teaching is focused on the integration of simulation into nursing curriculum, learning resource centers in nursing, and service learning. Dr. Childs has published in all of these areas as well as presented at numerous schools, conferences and symposia. She has been awarded several teaching and research awards including the 2005 International Nursing Association of Clinical Simulations' (INACLS) Research Award. Dr. Childs was one of the 8 Project Coordinators involved in the national, multi-site, three year NLN/Laerdal Research Study on Simulation in Nursing Education (2003-2006).

Dr. Childs is one of the founding members of INACSL and served as the first Vice President for Communication. She is currently serving on the INACSL Board as the Journal Administrator and is a member of the Editorial Board for the INACSL Journal.
